03.ELA.1

ELA/Literacy Grade-Level Instructional Materials Evaluation Tool

Quality Review
GRADE 4

WCSD 2018

Washoe County School District
Every Child by Name and Face to Graduation.

Council of the Great City Schools

COMPONENT 1: TEXT COMPLEXITY

The guiding statements provided in this section will examine text complexity in order to differentiate quality and richness among the texts WCSD is considering for adoption. To address the grade four standards, the submitted materials need to create the conditions for rich and robust discussion and writing for ALL students (struggling readers, students with identified academic disabilities, English Learners, students who are performing at grade level, and advanced students).

GUIDING STATEMENTS	SPECIFIC EVIDENCE FROM THE TEXT/MATERIALS	EVIDENCE RATING
Literature and Informational Text C1a. The texts present rich and embedded relationships between and among characters, ideas, and concepts that are conveyed through masterful style and structure. (See exemplars in CCSS, Appendix B.)	The Lexile levels of the texts are wishing the grade four reading band. Wish some of the texts were a little higher Lexile level. For instance, a few more texts above the 900 level for our high readers. T can implement differentiation for low and average readers. The texts become more complex throughout the year as students become more familiar with routines.	○ 4) extensive ● 3) sufficient ○ 2) some ○ 1) weak
C1b. As well as, texts that contain rich content, ideas and academic language worthy of close reading.	Overall, the program provides texts with rich content by using both NF and F reads, trade books, fluency reads, decodables, but not sure if all the context is rich.	○ 4) extensive ● 3) sufficient ○ 2) some ○ 1) weak

C1c. The materials consistently provide opportunities to read both literary and informational texts in the grades three through five text complexity band with scaffolding as needed at the high end of the range.	Yes. Multiple opportunities for NF and F, but most do not go up past 900 Lexile level. The texts get a higher Lexile level towards the end of each unit. As the year continues the text also gets higher in complexity. There is an intervention book for ELL and low leveled readers.	(●) 4) extensive ( ) 3) sufficient ( ) 2) some ( ) 1) weak
C1d. Materials provide strategies for grade-level vocabulary acquisition.	There is a word work section, phonics, and morphology. I like how the lessons are set up as mini lessons and have work pages that don't have to go with the reading. Sometimes we can't get to the full reading, but want and need to teach a mini lesson. The work pages are also efficient for students to practice with.	( ) 4) extensive (●) 3) sufficient ( ) 2) some ( ) 1) weak

OVERALL RATING: ( ) 4) extensive evidence (●) 3) sufficient evidence ( ) 2) some evidence ( ) 1) weak evidence

SUMMARY STATEMENT (Explain why the materials received this overall rating):
Overall, Pearson does a nice job of picking both NF and F complex texts for students. They have a strong word acquisition piece with valuable resources for teachers to use with all types of learners. Wish the Lexiles of the readers had a few more complex readings for our kiddos above 900 Lexile. We can always teach high and differentiate for our lows and average kids. Teaching high and getting students used to the complex texts they will be tested on in SBAC is very important.

COMPONENT 2: QUESTIONS AND TASKS

At least 80% of all questions in the submission are high-quality text-dependent and text-specific questions. The overwhelming majority of these questions reference specific text and draw student attention to the text they are reading. Text-dependent questions that address the grade four standards will be described in greater depth in Alignment Criterion II.

ALIGNMENT CRITERION I: RANGE AND QUALITY OF TEXTS

Materials must reflect a wide range of text types and genres, as required by the standards. In grade four, and across all other grade levels, there should be ample texts on topics that can support sustained study. Knowledge built at one grade level should be expanded in other grade levels. Topics should take into account individual student academic needs and interests in order to foster independent reading. It is also imperative that the included topics and themes are compelling enough to read multiple times and are aligned to district needs. Pay particular attention to the guidance provided in Appendix B of the Common Core State Standards.

GUIDING STATEMENTS	SPECIFIC EVIDENCE FROM THE TEXT/MATERIALS	EVIDENCE RATING
Literature and Informational Text 1a. The range of materials, both print and digital, allows teachers and students to explore content that coherently and systematically builds knowledge and grade-level vocabulary across subjects, themes, and topics. (See CCSS Appendix B for examples of grade-level knowledge demands.) Text sets also address a wide variety of student interest, and are likely to foster independent reading.	I love how the text sets build upon one another. Each set also has NF and F texts.	◉ 4) extensive ○ 3) sufficient ○ 2) some ○ 1) weak
1b. Text sets include a diverse range of high quality, culturally-responsive and appropriate topics and themes. Texts from diverse cultures reflect the same high-quality features that are demanded of all texts.	The themes go nicely with fourth grade topics that fourth graders are learning in science and social studies. Also includes some Greek mythology, legends, and myths which is what our kiddos need.	◉ 4) extensive ○ 3) sufficient ○ 2) some ○ 1) weak

GUIDING STATEMENTS	SPECIFIC EVIDENCE FROM THE TEXT/MATERIALS	EVIDENCE RATING
1c. Materials include a rich and diverse sampling of literary texts including, but not limited to: • Stories, drama, prose, and poetry • Stories, myths, and traditional literature from diverse cultures	Yes. Very obvious. NF and F reads along with poetry. There is also myths and legends from other cultures as well.	◉ 4) extensive ○ 3) sufficient ○ 2) some ○ 1) weak
1d. The range of informational texts includes elections that: • Present historical events • Describe technical procedures • Present scientific ideas or concepts • Contain at least two texts on the same topic • Present first and secondhand accounts of the same event or topic • Contain relevant visual representations of information	The one thing I could not find was the first and secondhand accounts of the same event or topic. Super important to include these.	○ 4) extensive ○ 3) sufficient ◉ 2) some ○ 1) weak
1e. Student reading materials contain a range of increasingly challenging selections that allow teachers to build students' ability to comprehend complex text and expand vocabulary throughout the school year.	Agree.	○ 4) extensive ◉ 3) sufficient ○ 2) some ○ 1) weak

OVERALL RATING: ○ 4) extensive evidence ◉ 3) sufficient evidence ○ 2) some evidence ○ 1) weak evidence

SUMMARY STATEMENT (Explain why the materials received this overall rating):
Overall, the materials provide the teacher to teach in a cohesive manner. Would have liked to see first and secondhand accounts, but other than that the teachers would have resources to NF, F, poetry, myths and legends, and Greek mythology.

ALIGNMENT CRITERION II. QUESTIONS AND TASKS SUPPORT STUDENT LEARNING

Questions posed to students in the materials under review should support student learning in building reading comprehension, in finding and producing the textual evidence to support responses, and in developing grade-level academic language and domain-specific words and phrases. Text for grade four students must include text-dependent questions that require the use of higher order thinking skills. There should be a range of questions that require students to attend to the author's language as his/her vehicle for conveying meaning, as well as to support specific inferences with explicit details from the text. Most questions should require that the student refer to the text in several places in order to devise an answer—rather than asking only literal, "right there" types of questions—and should require the student to begin comparing texts, authors, and opinions (CCSS).

GUIDING STATEMENTS	SPECIFIC EVIDENCE FROM THE TEXT/MATERIALS	EVIDENCE RATING
Literature and Informational Text 2a. *Key Ideas and Details.* Questions and tasks require students to explicitly attend to the text, including, but not limited to: • Referring to details and examples in a text when explaining what the text says and when making inferences • Summarizing text • Determining the theme of a story or main idea of a text from key details • Describing characters, settings, or events in depth • Explaining events, procedures, ideas, or concepts covered in historical, scientific, or technical reading selections, including what happened and why	Yes, but I think the text-dependent questions and close reading is the weakest part of the program. The questions are more general than specific. Many questions were at a DOK level 1, would have liked to see questions at a higher level have students retread the text and find multiple amounts of text evidence.	○ 4) extensive ○ 3) sufficient ● 2) some ○ 1) weak

GUIDING STATEMENTS	SPECIFIC EVIDENCE FROM THE TEXT/MATERIALS	EVIDENCE RATING
2b. *Craft and Structure*. Questions and tasks require students to explicitly attend to the text, including, but not limited to: • Determining the meaning of words and phrases as used in the text, including general academic and domain-specific words as well as those that allude to significant characters found in mythology (such as *Herculean*) • Explaining the differences between drama, prose, and poetry • Describing the overall structure of a text or structural elements of poems and drama • Comparing and contrasting the point of view from which different stories are narrated, including first- and second-hand accounts of the same event or topic, or first- and third-person narrations of a story	No meaning of words questions where students would have to find context clues to support why they believe a word should mean a specific meaning. Not a lot of rereading. Not many texts on first and second hand accounts so doesn't leave students with many opportunities to compare.	○ 4) extensive ○ 3) sufficient ● 2) some ○ 1) weak
2c. *Integration of Knowledge and Ideas.* Questions and tasks require students to explicitly attend to the text, including, but not limited to: • Explaining how an author uses reasons and evidence to support points • Making connections between the text of a story or a drama and prose • Interpreting information presented visually, orally, or quantitatively • Comparing and contrasting the treatment of similar themes, topics, and patterns of events in literature • Integrating information from two texts on the same topic	Questions are more simplistic or too challenging and vague for students. Simplistic where students can just find the answer very quickly with little struggle or critical thinking or the question is almost too vague for students.	○ 4) extensive ○ 3) sufficient ● 2) some ○ 1) weak

OVERALL RATING: ○ 4) extensive evidence ○ 3) sufficient evidence ● 2) some evidence ○ 1) weak evidence

SUMMARY STATEMENT (Explain why the materials received this overall rating):
I believe the close reading text dependent questions is one of the weaker parts of the program. Reminds me of HM before we did the BAP lessons.

ALIGNMENT CRITERION III. WRITING TO SOURCES AND RESEARCH

The writing standards for each grade level highlight distinctive expectations about student writing. For details on grade-level writing expectations and writing exemplars for grade four, see the Common Core State Standards for English Language Arts and Literacy. The metrics below show key characteristics to look for in your review of materials.

GUIDING STATEMENTS	SPECIFIC EVIDENCE FROM THE TEXT/MATERIALS	EVIDENCE RATING
3a. Writing assignments are explicitly connected to what students are reading, and routinely include writing over shorter time frames (a single sitting or a day or two) and extended time frames (for research, reflection, and revision) for a range of discipline-specific tasks, purposes, and audiences.	Yes, but not very structured and the writing has a language purpose, but no purpose geared towards the text.	○ 4) extensive ○ 3) sufficient ● 2) some ○ 1) weak
3b. Text-dependent questions generally create the foundation for students to address culminating writing tasks, including: • Writing opinion pieces on topics or texts, supporting a point of view with reasons and information • Writing informative/explanatory texts to examine a topic and convey ideas and information clearly • Writing narratives to develop real or imagined experiences or events using effective technique, descriptive details, and clear sequences of events	This is where I feel the text-dependent questions lack and I don't feel like the writing prompts are very focused for students. I feel like students would get confused because of how vague the writing prompt questions are.	○ 4) extensive ○ 3) sufficient ● 2) some ○ 1) weak
3c. Reading materials can serve as models to explore writer's craft, demonstrate use of domain-specific words and phrases, and support student production of grade-level opinion, informational, and narrative writing.	I feel like the reading materials have academic and domain specific language that support student writing. I also think that the language acquisition piece is super strong and students would be able to use the language appropriately, but the writing prompts and text dependent questions are so vague students may get confused and not answer the questions.	○ 4) extensive ● 3) sufficient ○ 2) some ○ 1) weak

GUIDING STATEMENTS	SPECIFIC EVIDENCE FROM THE TEXT/MATERIALS	EVIDENCE RATING
3d. Materials include explicit support to teachers, either in the teacher's edition or classroom materials, for writing instruction linked to the grade four writing standards, including: • Producing clear and coherent writing in which the development and organization are appropriate to the task, purpose, and audience • Developing and strengthening writing by planning, revising, and editing • Using technology, including the Internet, to produce and publish writing, as well as to interact and collaborate with others, demonstrating sufficient keyboarding skills • Graphic organizers, chart, etc. to aid in explicit teacher instruction Materials should also guide the teaching of specific components of grade four writing standards 1-3 (See CCSS).	Material provides several graphic organizers for students and teachers to use. Teachers would be able to choose graphic organizers that meet the needs of different students in the classroom. Has internet resources as well. Has online assessments that would help students practice their keyboarding skills. Writing rubrics are weak and are not broken down.They should break down each writing focus section into different parts. There are several parts to each writing component section that must be noted in order for students to understand where they fall in each writing piece. Although I do like the student checklists for peer editing.	○ 4) extensive ● 3) sufficient ○ 2) some ○ 1) weak
3e. Materials provide opportunities and resources for students to conduct short research projects that build knowledge about a topic, including: • Investigating different aspects of a topic • Recalling relevant information from experiences or gathering information from print and digital sources • Taking notes and categorizing information • Providing a list of sources • Drawing evidence from literary or informational texts to support analysis, reflection, or research	I think the text sets are well organized for students to conduct short research projects. There are several different graphic organizers where students could take notes. Teachers could make it a routine with different genres of reads. The questions are poorly written and I don't know if they would guide students to strong pieces of writing.	○ 4) extensive ○ 3) sufficient ● 2) some ○ 1) weak

OVERALL RATING: ○ 4) extensive evidence ○ 3) sufficient evidence ● 2) some evidence ○ 1) weak evidence

SUMMARY STATEMENT (Explain why the materials received this overall rating):
The writing and close read questions would be the weaker parts of this program which is concerning for fourth grade students. Students must be given multiple opportunities for writing. Although it also must be structured opportunities. Many of the writing opportunities are standards-based, but do a poor job connecting to what students have read therefore students won't have clear writing and may have a hard time meeting the standard. The purpose of the writing prompts are confusing and weak for students.

ALIGNMENT CRITERION IV: FOUNDATIONAL SKILLS

Materials provide guidance and support for explicit and systematic instruction and diagnostic support in grade-level phonics, vocabulary development, syntax, and reading fluency. Students must be able to recognize and pronounce words fluently in order to focus on the major goal of reading, which is comprehension. Effective foundational skills instruction in grade four includes an explicit and systematic focus on phonics and practice in applying phonics for students who are struggling. Building word analysis skills and fluency must also be contextualized within the materials (CCSS).

GUIDING STATEMENTS	SPECIFIC EVIDENCE FROM THE TEXT/MATERIALS	EVIDENCE RATING
4a. Materials provide teachers with guidance and support for explicit and systematic instruction of the grade four *Reading Standards for Foundational Skills* by providing instruction in phonics, word analysis, and reading with fluency to support comprehension. (Refer to CCSS, Appendix A for the research detailing the advancement of foundational skills in reading.)	Does a fabulous job guiding the teacher. Love the mini-lessons. Work pages connect perfectly. I love that there are decodeables in the upper grades that connect to the foundational skills!	● 4) extensive ○ 3) sufficient ○ 2) some ○ 1) weak
4b. Materials include a variety of opportunities for students to develop and apply word analysis and decoding skills, including: • Understanding grade-level vocabulary using an integrated approach (including affixes, multi-syllable words, etc.) • Understanding multisyllabic words in context and out of context • Self-correcting using word recognition skills and context clues, rereading text purposefully as needed • Developing fluency with grade-level regular and irregular spelling patterns • Spelling patterns and morphology	Love the mini-lessons! Kind of like a number talk and what our staff has discussed on how we would implement this process.	● 4) extensive ○ 3) sufficient ○ 2) some ○ 1) weak

GUIDING STATEMENTS	SPECIFIC EVIDENCE FROM THE TEXT/MATERIALS	EVIDENCE RATING
4c. Materials provide regular practice in reading grade-level prose and poetry with accuracy, at an appropriate rate, and with appropriate expression.	Several fluency opportunities! Wish there was a fluency rubric for students to see and assess themselves as well. This would help students become more aware.	◉ 4) extensive ○ 3) sufficient ○ 2) some ○ 1) weak
4d. Materials guide students in reading grade-level texts with purpose and understanding, making frequent connections between the acquisition of foundational skills and access to the meaning of texts (including a set of text-dependent or text-specific questions to check for understanding).	Yes, strong lessons, decodeables, and practice.	◉ 4) extensive ○ 3) sufficient ○ 2) some ○ 1) weak

OVERALL RATING: ◉ 4) extensive evidence ○ 3) sufficient evidence ○ 2) some evidence ○ 1) weak evidence

SUMMARY STATEMENT (Explain why the materials received this overall rating):
One of the strongest parts of the program, if not the strongest. Beautiful scope and sequence, short reads (fluency and decodeables) for students to practice the skills. Hits phonics and morphology with a little more morphology focus (obvious for grade four and upper grades, but still hits some major phonics work that all students need).

ALIGNMENT CRITERION V: LANGUAGE

The Common Core State Standards for language focus on ensuring that students gain adequate mastery of a range of language skills and applications. Students are expected to meet each year's grade-specific standards and retain or further develop skills, knowledge, and vocabulary gained in preceding grades (CCSS).

GUIDING STATEMENTS	SPECIFIC EVIDENCE FROM THE TEXT/MATERIALS	EVIDENCE RATING
Conventions of Standard English 5a. There is evidence that grade-level grammar and conventions are addressed using an integrated and contextualized approach in daily instruction. Materials and tasks in grade four are designed to help build student understanding and use of: • Relative pronouns • Progressive verb tenses • Modal auxiliaries such as *can*, *may*, or *must* to convey various conditions • Correct ordering of adjectives within sentences • Prepositional phrases • Complete sentences and editing fragments and run-ons • Correct spelling and capitalization • Commas and quotation marks to mark direct speech or quotations • Commas before a coordinating conjunction in a compound sentence	There is evidence. They try to incorporate it into the writing activities and also have practice pages as well, which I like. Although the writing is weak, so teachers would need to be aware of this. The practice pages are good and follow standards.	○ 4) extensive ● 3) sufficient ○ 2) some ○ 1) weak
Knowledge of Language 5b. The materials support instruction on: • Choosing words and phrases to convey ideas precisely • Choosing punctuation for effect • Differentiating between contexts that call for formal and informal English	Sufficient practice. Each lesson has a convention focus.	○ 4) extensive ● 3) sufficient ○ 2) some ○ 1) weak

GUIDING STATEMENTS	SPECIFIC EVIDENCE FROM THE TEXT/MATERIALS	EVIDENCE RATING
Vocabulary Acquisition and Use 5c. The materials provide context, support, and strategies for teaching vocabulary acquisition skills, including: • Using context clues to unlock the meaning of words • Using Greek or Latin affixes and roots as clues to the meaning of words • Consulting reference materials to determine pronunciation or the meaning of words	Uses fluency reads and decodeables for the practice, which I enjoy and think is smart. Mini lesson and then is used with the he students fluency read or decodeables.	○ 4) extensive ● 3) sufficient ○ 2) some ○ 1) weak
5d. The materials provide embedded opportunities for students to encounter and develop an understanding of figurative language, word relationships, and nuances in word meanings.	I agree, found in text sets, fluency reads, and decodeables.	● 4) extensive ○ 3) sufficient ○ 2) some ○ 1) weak

OVERALL RATING: ○ 4) extensive evidence ● 3) sufficient evidence ○ 2) some evidence ○ 1) weak evidence

SUMMARY STATEMENT (Explain why the materials received this overall rating):
Overall, the language section is strong unless it is incorporated into the writing section. Due to the writing section being weaker the T may need to monitor this more closely and rely on the reading materials and practice pages a bit more.

ALIGNMENT CRITERION VI: SPEAKING AND LISTENING

To be CCSS-aligned, speaking and listening must be integrated into lessons, items, and tasks. These must reflect a progression of communication skills required for eventual college- and career-readiness. If grade four students are able to listen to others, discuss what they are learning, and voice their own confusion or misunderstandings, their learning becomes deeper and more meaningful. They are exposed, at this level, to points of view that may differ from their own, and they learn how to agree and disagree, express their own thoughts, and ask questions when they don't understand or need more clarification (CCSS).

GUIDING STATEMENTS	SPECIFIC EVIDENCE FROM THE TEXT/MATERIALS	EVIDENCE RATING
6a. *Comprehension and Collaboration.* Materials provide a language framework for student participation in academic conversations, including the ability to: • Come to a discussion prepared • Follow agreed upon rules/roles • Pose and respond to specific questions to clarify or follow up on information • Review key ideas and explain their own ideas • Use accurate, grade-appropriate conversational, general academic, and domain-specific words and phrases	I think the text dependent questions are meant for this process to happen, but are not strong questions so the T would need to be creative on how to hold students accountable. I like that there are student checklists and rubrics that could provide students with opportunities during whole group, small group, and peer editing.	○ 4) extensive ● 3) sufficient ○ 2) some ○ 1) weak

GUIDING STATEMENTS	SPECIFIC EVIDENCE FROM THE TEXT/MATERIALS	EVIDENCE RATING
6b. *Presentation of Knowledge and Ideas.* Materials provide a language framework for student planning of effective presentations, focusing on: • How to report on a topic using evidence to present findings from their research • How to tell a story or recount an experience in an organized manner • How to use appropriate facts and relevant details to support main ideas and themes • How to speak in complete sentences when appropriate to the task and situation clearly and at an acceptable pace • How to differentiate between contexts for formal English and situations where informal discourse is appropriate	Purpose of writing prompts and text-dependent questions are weak. Although there are several graphic organizers and rubrics that students may use for support. I think their effectiveness will depend upon how the teacher chooses to implement them. Many of these aspects are not spoken of in teacher's guide, which would leave a bit of inconsistency depending on how individual teachers implement these.	○ 4) extensive ○ 3) sufficient ● 2) some ○ 1) weak

OVERALL RATING: ○ 4) extensive evidence ● 3) sufficient evidence ○ 2) some evidence ○ 1) weak evidence

SUMMARY STATEMENT (Explain why the materials received this overall rating):
I think there are strong materials that teachers can use, but there is a lack on structure for the materials and I can see the effectiveness of the materials relying on how individual teachers use and implement them within their classes. I can see newer teachers struggling to come up with efficient and creative ideas on how to use the materials.

ALIGNMENT CRITERION VII: SCAFFOLDING AND SUPPORTS

While scaffolds are not a part of the standards themselves, it is important to support teachers in meeting the needs of the range of students in their classrooms. In order to meet the reading, speaking, and writing needs of all grade four students, the materials must include supports for students to comprehend texts at the grades three through five-complexity band as required, and at the high end of this complexity band with scaffolding. Supports and scaffolds should draw students back to the text and provide strategies for vocabulary acquisition. All scaffolding and support requires ongoing formal and informal assessments that provide multiple opportunities for students to demonstrate their proficiency and inform instruction.

It is important to note that scaffolding is not just intended for struggling students, but also for students who are ready for above grade-level work. As text complexity increases and tasks get increasingly challenging, the need for appropriate scaffolds for above grade-level access is equally important (CCSS).

GUIDING STATEMENTS	SPECIFIC EVIDENCE FROM THE TEXT/MATERIALS	EVIDENCE RATING
7a. The texts promote differentiated instruction and instructional conversations about text to support student learning of: • Academic language • Linguistic frames for student talk and writing • Repeated grammatical structures and language	There is an intervention resource book and helpful reteaching pages for ELL students and students who fall under the 40th percentile.	○ 4) extensive ● 3) sufficient ○ 2) some ○ 1) weak
7b. The materials include student supports such as: • Multiple digital and media versions of texts • Illustrations • Graphs and charts • Maps and photographs • Visual cues/notes that draw attention to words in the text that signal sequence or offer clues to meaning (i.e., where, when, and how key events occur)	Agree. Very evident.	● 4) extensive ○ 3) sufficient ○ 2) some ○ 1) weak

GUIDING STATEMENTS	SPECIFIC EVIDENCE FROM THE TEXT/MATERIALS	EVIDENCE RATING
7c. The materials are designed to support teacher instruction by use of: • Explicit instructional directions accompanied by materials that are clearly aligned to stated goals and objectives that build student ability to read and comprehend grade-level text • Strategies to gradually increase difficulty as students' comprehension skills strengthen • Strategies to support student acquisition of knowledge supporting specific common core standards • Clear and detailed teacher directions and guidance for introducing new concepts and skills • Clear guidance for documenting student progress toward meeting grade-level standards	Many strategies evident. Fluency reads, decodeables, leveled readers, graphic organizers, reteaching pages, small group instruction guide lines, rubrics for teacher and student use. Text-dependent questions and writing directions weak, but strong foundational skills and language resources and teacher guidelines.	○ 4) extensive ● 3) sufficient ○ 2) some ○ 1) weak
7d. The materials provide support for student learning through varying modalities (i.e., there are provisions for print, digital, and other multimedia sources for information attainment).	Agree. There are digital tools, pictures, multiple text sets, decodables, leveled readers, rubrics and checklists.	● 4) extensive ○ 3) sufficient ○ 2) some ○ 1) weak

GUIDING STATEMENTS	SPECIFIC EVIDENCE FROM THE TEXT/MATERIALS	EVIDENCE RATING
7e. The materials include assessments along with: • Suggestions for next steps to address a spectrum of performance levels and needs based on assessment results • Opportunities for students to demonstrate their expertise through the use of performance tasks • Pieces of challenging and complete text that can be used to assess student understanding and next instructional steps • Reading selections and questions that progress in a logical sequence for gradual release[1] • Enrichment tasks for students who are on target for meeting grade-level expectations • Steps to take when evidence suggests that students are starting to fall behind	Yes, there is a baseline assessment, formative assessments throughout each unit and a performance task assessment at the end of each unit. They also have modified assessments hard copies and digital. All assessments can be a hard copy or digital!	○ 4) extensive ● 3) sufficient ○ 2) some ○ 1) weak

OVERALL RATING: ○ 4) extensive evidence ● 3) sufficient evidence ○ 2) some evidence ○ 1) weak evidence

SUMMARY STATEMENT (Explain why the materials received this overall rating):
Overall, the curriculum provides several resources to meet all learner's needs on all ends of the spectrum.

1 Gradual release: scaffolding of instruction so that students develop the ability to read and complete tasks and assignments independently and proficiently.
