

Maverick Commitment to Service

At The Smith Academy we are committed to preparing our students for a successful life beyond high school. Providing focused career pathways and rigorous academics is the first step. Connecting students to the community and helping them recognize their role within that community is the second, and equally important step. To do this, we focus on increasing personal leadership capacity and social responsibility throughout high school.

- In Practice, this means that each year our students are expected to participate in lessons and service projects focused on:
- Understanding the nature of communities and their interdependence
- Identifying needs of different communities and the world
- Working with community members to respond to identified needs
- Using their skills and abilities to take an active role in making a difference
