

# Edgenuity Security Update

## September 25, 2020

The District is improving security with a new access link to Edgenuity. Starting on September 25, students will have access to a new secure web address to log-in to Edgenuity. All students using Edgenuity will need to use the following website to access their account:

**<https://auth.edgenuity.com/login/saml/student/washoeschools>.**

- The former URL will no longer be accessible to students after Friday, September 25, 2020. Students may have this website bookmarked or saved, which must change to the new website.
- The new sign-in is the same as the student's district sign-in used for all other district programs such as enVision Math, myOn, Microsoft Teams, etc.
- Edgenuity works on all browsers, but it is recommended to use Google Chrome or Mozilla Firefox. Avoid using Explorer which is no longer supported.
- From this site, students can access their Edgenuity course(s) as well as progress, grades, and the internal student/teacher email.
- If a student struggles signing into Edgenuity, they should contact their school to help them reset their District assigned password. This new link is provided by WCSD.

**The graphic below shows how students should sign in.**

**1** Your username is your student email address which is your studentIDnumber@washoeschools.org  
Example: 1234567@washoeschools.org

**2** The password will be the same you use to log into Windows on a WCSD computer or when you log into Microsoft Teams.
