

## **Preparing for Math Professional Development**

**The document your school is creating today can be used as a living document to be revisited throughout your Math instruction into the CCSS Math Practices and Instructional Guides.**

**For your first activity according to Module 1, see below**

- ✓ **As staff enters for P.D. provide each teacher with 2 sticky notes and ask them to write down two verbs that describe Mathematics.**
- ✓ **In their groups, using a large piece of chart paper, select 5 of the notes to place on the paper.**
- ✓ **They need to have a discussion about what those verbs look like and sound like within the classroom. This will be used as a tool for teachers to build, edit, and refine as the year progresses.**
