

Ensuring a Safe and Respectful Learning Environment

Reporting, Prevention and Intervention

The Washoe County School District is committed to working with the community to prevent bullying, cyberbullying and harassment in our schools. During the 2015 Session of the Nevada Legislature, Senate Bill 504 made important changes to the laws which prohibit bullying and cyberbullying (NRS 388.121 – 388.145), to increase the supports and interventions available to students, and to create a culture of respect and prevention in our schools and community.

All of us in the Washoe County community have an important role to play in the prevention of bullying, cyberbullying and harassment. We encourage you to report incidents of bullying, cyberbullying and harassment and the District has various methods to do this. (See sidebar) We will make every effort to investigate the allegation, install remedies, use prevention efforts and offer interventions and supports to your child(ren).

It is important to understand the difference between bullying and conflict. Conflict is a normal part of life. Learning to deal with conflict will help children learn the social skills they will need as adults. When peer conflict occurs, both people involved have equal power in the relationship. While both people may be upset and emotional, neither is seeking power or attention. When people experience conflict, they generally feel remorse and take responsibility for what they did wrong. In other words, they want to solve the problem so they can start having fun again. Also, conflict happens occasionally and is *usually* not serious or emotionally damaging to either person.

Bullying is generally deliberate, unwanted, aggressive behavior that involves a real or perceived imbalance of power and is designed to hurt, insult or threaten another person. Bullying is repeated, or has the potential to be repeated, over time; pervasive or widespread; or can be a single severe physical act. An imbalance of power, such as physical strength, access to embarrassing information, or popularity, is used to control or harm others.
