

B. Student Behavioral Matrix / Progressive Discipline Plan

The Washoe County School District (“District”) recognizes the inter-dependency between academic outcomes and student behavior. Understanding this, it employs Multi-Tiered Systems of Support (MTSS) as a preventative, supportive, consistent instructional problem-solving framework to support positive student behavior and academic achievement. If student behavior falls below expectations, school administrators will use the following behavioral guidelines to determine appropriate consequences and/or interventions for student behavior violations. In all instances, these guidelines may be modified contingent upon the level of severity of the incident and aligned with age, developmental level and other extenuating circumstances. The guidelines are applicable to incidents, which occur at school; travel to and from school, during lunch, and while involved in school sponsored-activities. In all circumstances, school administrators will make decisions based upon the health, safety and welfare of all students, regardless of real or perceived race, creed, religion, sex, sexual orientation, gender identity, and/or disability status while keeping the focus on student success and the “Pathway” to graduation.

Nevada state law (NRS 392.4655 – 392.4675) stipulates the temporary removal or expulsion of students under certain circumstances. Possession/Use of a deadly weapon, sales/distribution of controlled substances, and battery to staff are considered “Big 3” offenses and result in temporary removal or expulsion. State law further stipulates that a student can be temporarily removed for posing a substantial threat to the health and safety of a school. When a child poses a threat, a safety screener & assessment process is required to first determine level of threat before considering a removal. Statute also provides some latitude for a principal to deem a student a Habitual Discipline Problem and to recommend temporary removal. Typically speaking, these latter conditions do not apply to special education students, but a case by case approach must be taken, nonetheless.

An attempt has been made to organize the matrix in a manner that emphasizes statutory requirements while continuing to provide attention to a myriad of additional offenses that may require disciplinary intervention. In meting out discipline, the current event, a child’s history of behavior, and a child’s developmental stage should be considered. For example, disruptive behavior exhibited by a child in K-3 is likely to be handled differently than a child at the intermediate level, middle school level or high school level. Although the matrix allows for consistency in disciplinary actions taken, it cannot replace the professional judgment of school administrators.

Any behavior or disciplinary related actions or sanctions being taken with any student who is participating in a program of Special Education/Section 504, must comply with the Individuals with Disabilities in Education Act, Americans with Disabilities Act and all state and federal laws and regulations, as different standards apply to the discipline and temporary removal of students.

1. Documentation

- a. Accurate documentation of student behavior within Infinite Campus is mandatory. Documentation allows schools and the District to track trends and behaviors to provide focused supports, interventions and training. Documentation of events and use of the associated data is required under federal regulations and civil rights laws.

2. Discretion for resolving incident:

- a. This guidance provides administrators options for resolving incidences. The choice for discipline is based on the current situation, its perceived severity, and past similar or other disruptive behavior. Administrators are ultimately responsible for chosen disciplinary action and have discretion in the choices they make.
