STEM SUPPLIES

Dear Parents,

This year our class will be participating in STEM engineering projects that get your child involved with Science, Technology, Engineering, and Math with hands-on engaging projects. For our projects we use common household items and could use your help collecting materials. The Dollar Store is a great place to find STEM materials. Here are some things we could use:

- toothpicks
- straws
- craft sticks
- pipe cleaners
- paper plates/bowls
- small plastic cups
- Dixie cups
- coffee filters
- aluminum foil
- plastic wrap
- string
- newspaper
- balloons
- foam balls
- cotton balls
- magnets
- pie tins
- cardboard
- toilet paper rolls
- paper towel rolls
- sponges
- rubber bands
- duct tape
- masking tape
- ping pong balls
- popsicle sticks
- plastic baggies of any size

I appreciate any donations to help us with STEM throughout the year. I look forward to introducing your child to the world of scientific discovery.

Thank you!

Mrs. Dolan
