ATTENDANCE PROCEDURES FOR 2020-2021 SCHOOL YEAR

NRS 392.122 establishes that minimum attendance is required for promotion to the next grade. These guidelines are aimed at improving school attendance and student success.

- Students are classified each day as either present or absent.
- Chronically absent students include students who are absent for any reason, including illness, appointments, suspension, vacations, emergencies, etc.
- Students must make up any missed work resulting from an absence.
- Make up work will not remove their absence from their record.
- Students will no longer fail a class based only on attendance.
- If a student is ill, please keep the student home.
- Parents must **call the school each day** their student is absent.
- All absences count against the students' chronic absenteeism.
- Students have the opportunity to complete make up work or concepts missed from the absence; however, the absence will still count towards chronic absenteeism.
- If a student is **excluded** due to health-related issues, they are to attend Distance Learning daily and complete work assigned. If work is not completed, this absence will count towards chronic absenteeism.

Please call the school if you have any questions regarding the WCSD attendance policy. Thank you.
