

Marie Borges
Strategies Teacher

Mrs. Marie Borges was born in raised in San Diego, California. After graduating High School she attended Chico State University where she majored in Liberal Studies. After graduating in 2011 she taught life and educational skills to adults with developmental disabilities.

In 2013, Marie and her husband moved to Incline Village, NV. That same year she started working as a 1:1 home interventionist for young children with Autism. She enjoyed this job so much that she went back to school and received her Masters of Education in Autism Studies in 2016. Two days after receiving her master's degree, Marie had her daughter, Collette.

In March of 2018 Marie and her family relocated to Reno; although they miss the mountains, they are enjoying all that Reno has to offer. When she is not in the classroom, Marie enjoys fishing, hunting, and hiking.

Marie is very excited to start her teaching career at Westergard Elementary! She looks forward to an amazing school year, and watching her students grow both academically and socially. Please feel free to contact Marie anytime with questions or concerns.
