Subject: Possible Rezoning for Verdi
Date: Wednesday, June 20, 2018 12:15:08 PM

To whom it may concern,

I hope it is just rumors, but there is talk of Rezoning my neighborhood to Gomm Elementary from Verdi Elementary. And also to Swope instead of Billingshurst. I live on Steelhead Court in the River Flow neighborhood. The reason we bought this house 7 years ago was because we wanted to attend Verdi Elementary. My two older children went to Verdi and my youngest is currently registered for 2nd grade at Verdi. It is not okay to change our school. It will have a huge impact on our family. We love the culture and community of Verdi and are active and comfortable there. This decision will negatively impact our family and I am begging you not to rezone us.

Thank you,
Mandy Limbert

May 22, 2018

To Zoning Advisory Committee,

I am writing this letter to express my continued concern for the safety of the students that ride buses on I-80 for extended periods each school day to Verdi E.S. from the Mesa Park, Bella Rio, and River Park neighborhoods as well as the Montebello apartment complex. As I previously stated to the zoning board, my neighborhood of Mesa Park is 6.4 miles from Verdi E.S. and 2.6 miles to Roy Gomm. The Montebello apartments are 8.5 miles to Verdi E.S. and 2.4 miles to Grace Warner E.S. The school bus picks children in up in my neighborhood (Mesa Park) between 7:55 and 8:05 for a 9:15 school start time. That means that children are on the bus for over an hour in each direction with significant travel time on the interstate when their neighborhood school is much closer.

Prolonged and unnecessary interstate travel to and from school is not safe. On top of this, the on-ramps that are used going to and from school are not compliant with current federal guidelines. According to Federal Highway Administration safety guidelines, the freeway on-ramps that are used when going to school and returning home at the end of the day do NOT meet current federal safety requirements. If these on-ramps were proposed to be built today, they would not be approved because they are too short for vehicles to safely navigate when entering the interstate. This proves to be a continued and daily safety hazard for the buses that are entering the interstate when transporting children to and from Verdi. I have personally been behind these school buses several times, and I have witnessed the bus drivers attempting to accelerate at a rate necessary to safely enter the freeway while continuing to fight for road space with semi-trucks and other large vehicles.

In an effort to further show the realities of daily interstate travel, I requested from NHP all accident reports and speeding tickets from Robb Drive to Gold Ranch on I-80 for all of 2017 through April of 2018. For complete transparency, I have included the raw data from NHP as attachments. I have also included the graphed data in this letter. On average, there are 10 documented traffic accidents per month on this stretch of interstate and 153 documented speeding citations issued per month. It is well documented that speeding increases the chance of fatalities in accidents. According to one insurance website, "In 2011, speeding was a contributing factor in 30 percent of all fatal crashes, and 9,944 lives were lost in speeding-related crashes" in that year. (www.thezebra.com)

Accidents on the interstate and highway involving school buses are not a rarity. As the nation witnessed as recently as May 17, 2018, buses are not equipped to withstand the impact of larger vehicles at high rates of speed. In New Jersey, a school bus was hit by a dump truck while transporting children to a school fieldtrip. The entire undercarriage of the bus was sheared off the bus during impact. The accident resulted with one fifth-grade student and a

teacher passing away. WCSD should make every attempt possible to maintain school safety during transportation. It is clearly too early to identify the lasting emotional and psychological damage that the other children will endure as a direct result of this accident. Included in this letter are several pictures of the May 17th accident in New Jersey to serve as a visual support.

WCSD maintains that student safety is their number one priority; however, the district continues to put students on a bus that must travel on the freeway when neighborhood schools are much closer to these homes and require no interstate travel. This current zoning decision was made decades ago when Reno was much smaller, less densely populated and more parents had the ability to drive their children to and from school. It is clear that these current school zone boundaries are outdated and require change to reflect the district policy on school safety.

Respectfully,

Nicole Chewjalearn

Subject: Gomm-Verdi issue

Hello,

My name is Joe Nannini and I am a parent at Roy Gomm, a former school administrator, dean and teacher. I urge you to not move forward with the plan to change the zoning and have the large number of students from Verdi Elementary attend Roy Gomm. I have several concerns with this proposed action but the most important being student safety.

Having seen a great number of drop off plans at various schools, I can say Gomm's is crazy! With traffic often backing up past the Edgewater subdivision at drop off and pick up, students are in clear danger that will only increase with additional students. I have contacted Reno City Council on several occasions to ask for a crossing signal to no avail.

With additional students this problem will only become less safe.

As an educator, I understand clearly the position you all are in regarding this decision but the person in me that did a lot of school safety work in the past is extremely concerned with the current situation let alone with additional families and an increased bus zone that will force more cars into the jam while also increasing the amount students walking to school.

Thank you for your time and your consideration of my comments which I base in my experience in our schools.

Thank you,
Joe Nannini

Dear Ms. Gottier,

Thank you for your detailed message. Your message will be shared with all committee members. It is anticipated that the Zoning Committee will next review the Verdi zone in June.

Respectfully, Paul

Paul M. LaMarca, Ph.D.
Chief Ombudsman & Strategies Officer

Subject: Verdi Elementary Rezoning Issue

Good evening Stephanie and other Rezoning Committee Members,

I am a parent of two students that live in the River Park community and attend Verdi Elementary School. I am writing you today in opposition of rezoning our community to Roy Gomm Elementary School. I have attended the last two rezoning meetings and understand that this rezoning issue is a difficult decision to make. I hope that the parent feedback you are receiving is constructive and will help you make the decision that benefits the most students possible.

Why We Want to Attend Verdi

Most people at the last rezoning meeting mentioned their school is already a community, regardless of where they live in relation to the school. I agree with this statement. Verdi Elementary and Roy Gomm Elementary are two very established schools and have built a sense of community over the years. Before our oldest daughter started Kindergarten, we

purchased our home for the sole purpose that we would be zoned for Verdi, Billingham and McQueen. Our family can make a home anywhere, but our main priority is that our children would get the best education along with the relationships they could develop over the years with their friends through high school. One of the many reasons we wanted our girls to go to Verdi was because I, myself, attended Verdi Elementary School. Most of the traditions I experienced at Verdi, as a student, are still taking place. This says something about the support this school receives from the parents and community to keep these traditions alive. These are all reasons why we want our children to continue to be zoned for Verdi Elementary.

Overcrowding

I understand that overcrowding at both Verdi and Gomm is the main concern. If you decide to move all four developments proposed by the District rep Adam, the numbers at Roy Gomm are sickening. Roy Gomm is not a new school with larger classrooms and multipurpose room. This school is one of the older schools in the district and has had all the extension it can possibly afford. I can only imagine what the class sizes will be if the rezoning to Gomm occurs. This is not what I want for my children. Not only is there an issue of moving too many children to Roy Gomm, there is the possibility of Verdi losing valuable allocations at our school if too many children are rezoned at one time. I know that this is not what you want for our students or staff.

Transportation

Regarding transportation; at Verdi, we do have longer times for our students on the bus than most schools in the district. Living in a rural area causes this longer bus ride. Students in our development do have to get on the freeway to get to school from where we live, but students in both Mogul and some in Beli Ranch need to use the freeway as well to get to school. We have some of the best and safest bus drivers in the District, their number one concern is our students' safety and know the best way to get our students to school. I hope that transportation will not be the deciding factor for you.

Middle & High School

If our community is rezoned for Roy Gomm, does this mean that our Middle and High School will be rezoned as well? Or if the Middle and High School zones stay the same, then you are sending our children to Roy Gomm for Elementary and then to a middle school where they could be split from their friends? I'm asking that you carefully consider keeping our children with their friends all the way through their education years.

WC1 Issue

Rezoning is not the only way to solve the potential overcrowding at Verdi. Another solution is to get the WC1 committee involved. It doesn't make much sense that the District would not want to build out the entire new building at Verdi while all the construction crews are on site disrupting our staff and students. The only reason it could be is due to money. Verdi was originally on the list of new schools/improvements on the WC1 Initiative. Therefore, so many parents at Verdi supported and promoted the benefits our students would receive from WC1. The District would rather come back in a year or even two, disrupt the staff and students again, to build four more classrooms that would allow us to

keep our music and Special Education resources in a classroom instead of the staff lounge and multipurpose room.

Possible Resolution

By looking at the breakdown of the four developments from the District handouts, it looks like there are some options that would not cause an increase in student population at Roy Gomm and alleviate some pressure on Verdi for incoming students due to the current construction projects. Warner Elementary can take the students from the Montebello Apartments without causing overcrowding numbers at that school. Due to the student numbers between the Montebello Apartments and W. 4th St. Corridor, Verdi has had to add an additional bus this year.

In Conclusion

When the Rezoning Committee first brought up any rezoning for Verdi Elementary, the Montebello Apartments was the only area being discussed. I'm not sure how this issue has grown over the last few months that could potentially affect hundreds of students. By rezoning the Montebello Apartments and reducing 13% of the students at Verdi and building out the entire building at Verdi, the staff and students would be able to continue their education at reasonable numbers that we are all wanting to achieve.

Thank you,
Morgan Gottier

Subject: Re: Fwd: Verdi Elementary Rezoning Issue

Good Afternoon,

Again, I'm writing the Rezoning Committee as a concerned Verdi Elementary parent. I'm aware that the issue for rezoning some of Verdi Elementary has become a larger and more sensitive issue than originally anticipated.

Originally, the Montebello Apartments were the only area on the rezoning committee's agenda to help alleviate anticipated growth out at Verdi Elementary. Somehow, this issue has turned into a much larger mess than needed. Hundreds of students could potentially be affected in a manner where the bad outweighs the good.

If the variance numbers for Roy Gomm are indeed accurate from what the District presented in April, two-thirds of those 98 variances would need to be recalled in order to make room for the Mesa Park, River Park and W. 4th St. Corridor. If the variances are not recalled, and the East Verdi students are rezoned, that would put Roy Gomm at 630 students (116% of capacity). How is this fair to any of the Verdi or Roy Gomm students?

If you move 37 students (Montebello) to Warner and 63 students (Mesa Park, River Park, & W 4th) to Roy Gomm, that will leave only 162 students at Verdi Elementary. It would be inevitable that Verdi would lose teacher allocations and valuable resources due to the number of students remaining. Again, this decision is not only affecting students and families, but also Washoe County School District Staff that would be left to find a new teaching position.

Another concern is where the rezoned Verdi students will go to middle school. Currently

they are zoned for Billinghamurst. If we are rezoned to Roy Gomm, does this mean our students will go to Swope Middle School (3.9 miles away) and Reno High School (5.5 miles away)? Swope Middle School is currently close to capacity and cannot make room for the anticipated 6th graders due to move up to middle school, how are they going to accommodate more students due to rezoning? If you are not rezoning the Middle School and High School, you are then having our children go to Elementary School at Roy Gomm and then head back to Billinghamurst (2.0 miles away) and McQueen (3.2 miles away) where our students have not had the chance to make friends with other students that will be starting middle school.

I am aware of the concerns of the developments in Verdi and the number of students that as a result of the new homes being built. Two weeks ago, the Meridian 120 project did not receive the approval from the City Council to move forward with the planned project as is. With this decision, it is uncertain how or when this development will begin. Therefore, there should be more room at Verdi for the foreseen future to leave students at the school instead of rezoning without causing overcrowding.

I have included my previous email from May that was sent to the Rezoning Committee and hope that you will consider all items that I have presented to NOT rezone the River Park, Mesa Park and W. 4th Street areas to Roy Gomm.

Thank you,
Morgan Gottier

Subject: Verdi Elementary Rezoning Issue

Good evening Stephanie and other Rezoning Committee Members,

I am a parent of two students that live in the River Park community and attend Verdi Elementary School. I am writing you today in opposition of rezoning our community to Roy Gomm Elementary School. I have attended the last two rezoning meetings and understand that this rezoning issue is a difficult decision to make. I hope that the parent feedback you are receiving is constructive and will help you make the decision that benefits the most

students possible.

Why We Want to Attend Verdi

Most people at the last rezoning meeting mentioned their school is already a community, regardless of where they live in relation to the school. I agree with this statement. Verdi Elementary and Roy Gomm Elementary are two very established schools and have built a sense of community over the years. Before our oldest daughter started Kindergarten, we purchased our home for the sole purpose that we would be zoned for Verdi, Billinghurst and McQueen. Our family can make a home anywhere, but our main priority is that our children would get the best education along with the relationships they could develop over the years with their friends through high school. One of the many reasons we wanted our girls to go to Verdi was because I, myself, attended Verdi Elementary School. Most of the traditions I experienced at Verdi, as a student, are still taking place. This says something about the support this school receives from the parents and community to keep these traditions alive. These are all reasons why we want our children to continue to be zoned for Verdi Elementary.

Overcrowding

I understand that overcrowding at both Verdi and Gomm is the main concern. If you decide to move all four developments proposed by the District rep Adam, the numbers at Roy Gomm are sickening. Roy Gomm is not a new school with larger classrooms and multipurpose room. This school is one of the older schools in the district and has had all the extension it can possibly afford. I can only imagine what the class sizes will be if the rezoning to Gomm occurs. This is not what I want for my children. Not only is there an issue of moving too many children to Roy Gomm, there is the possibility of Verdi losing valuable allocations at our school if too many children are rezoned at one time. I know that this is not what you want for our students or staff.

Transportation

Regarding transportation; at Verdi, we do have longer times for our students on the bus than most schools in the district. Living in a rural area causes this longer bus ride. Students in our development do have to get on the freeway to get to school from where we live, but students in both Mogul and some in Beli Ranch need to use the freeway as well to get to school. We have some of the best and safest bus drivers in the District, their number one concern is our students' safety and know the best way to get our students to school. I hope that transportation will not be the deciding factor for you.

Middle & High School

If our community is rezoned for Roy Gomm, does this mean that our Middle and High School will be rezoned as well? Or if the Middle and High School zones stay the same, then you are sending our children to Roy Gomm for Elementary and then to a middle school where they could be split from their friends? I'm asking that you carefully consider keeping our children with their friends all the way through their education years.

WC1 Issue

Rezoning is not the only way to solve the potential overcrowding at Verdi. Another solution is to get the WC1 committee involved. It doesn't make much sense that the District would not want to build out the entire new building at Verdi while all the construction crews are on site disrupting our staff and students. The only reason it could be is due to money. Verdi was originally on the list of new schools/improvements on the WC1 Initiative. Subject: concerning

Hello,

I was reviewing the latest material for the June 21st zoning committee meeting. According to your chart, ss of 10/1/17 your data documents on the zoning committee website show Verdi Elementary at 279 students. In 2027/28 with no changes you show student growth at 363 students at Verdi Elementary. However, the WCSD provided letters documenting school impacts for the approved Verdi housing projects. In these letters, 59 additional students were projected for Verdi Elementary for the approved West Meadows building. Further, there are 50 additional students projected for Verdi Elementary for the approved Meridian 120N. So 109 additional students plus 279 students as of 10/1/17 would bring us to 388 students. Yet, you only show 363 students in 2027/2028. This difference is somewhat concerning as this is approved building and the projected students are from the school district.

West Meadows has floor plans of 3-5 bedrooms with 324 homes and Meridian 120 N is 2-5 bedroom floor plans with the 273 homes. Again- these are already approved so that is 591 new homes which the district projects will result in 109 elementary school students at Verdi. Where are these numbers reflected in the zoning charts?

Does the 396 capacity number at Verdi ES with the additional 2 classrooms take into account that the resource, speech, and OT educators are currently in the faculty room? I question the 396 capacity as surely we plan to remedy the current situation?

Additionally, Canyon Pines which is 3-5 bedrooms and 308 homes was recently rezoned to

Melton. 75 students from these 308 homes were rezoned. If we use this development as a comparable model to the new Verdi approved building we would be looking at 79 students from West Meadows at Verdi Elementary and 66 from Meridian 120 N for Verdi Elementary. This comparable data would result in 145 projected Elementary schools students and not 109 as the district proposed but somehow is not in the zoning committee charts? 279 students plus an additional 145 students would put the elementary school way over capacity at 424 students.

Can you please shed some light us this for me so I can properly understand the charts prior to the zoning meeting on Thursday?

Thank you,

Robyn Sackrison

Hello,

I was considering sending a letter to this committee given that the June 21st meeting pertains to potential changes where my daughter attends. I did notice there are no letters in the supporting documentation for the upcoming meeting. Will the letters be posted online as supporting material for the next advisory committee meeting?

Dear Ms. Morris-Jackson:

Thank you for your question. The answer depends on what action the committee takes. If its action includes a recommendation to the BOT regarding a zoning change, we attempt to take that to the BOT at the next available meeting consistent with open-meeting posting requirements. If the committee makes a recommendation on June 21st, every attempt would be made to get it to the BOT during the month of July.

Dear Ms. Atkinson,

Thank you for your detailed message. It will be shared with all ZAC members.

Next year's calendar of activities for the ZAC has not been determined. However, the Board of Trustees has directed the ZAC to consider the possibility for additional changes stemming from the construction of a new elementary school in Spanish Springs anticipated to be operational in 2020-21.

I hope when those discussions are agendized you may decide to make public comment.

Respectfully, Paul

Subject: Spanish Springs elementary zones

Good evening,

I am currently reviewing the proposed zoning changes for the Spanish Springs elementary schools. I have found no discernable changes from what is currently used despite the construction of Sky Ranch Middle School, which is to alleviate capacities in existing schools.

As it stands, my child is zoned for Jesse Hall Elementary, even though we are

nearly two miles closer to Sepulveda Elementary. We live at 6015 Montague Ct, which is in the unfortunate triangular space between Sparks Blvd and Pyramid Highway that appears to be gerrymandered in an illogical fashion. To take my son to kindergarten next year, I will have to cross Pyramid Highway to take him to a before school program, which will then have to cross Pyramid themselves to transport him to school. They will cross where there is no stoplight, turn signal, etc. on a historically dangerous stretch of road.

My concern is the safety of the children in my neighborhood who have and will have to continue to drive an unreasonably long distance across an accident prone road. My concern is not with the school; both schools are reputable. My concern is the daily trip my son will have to make multiple times across Pyramid Highway. I recognize that the board has already approved this zoning proposal, but I would appreciate some clarification on why such an apparent haphazard decision has been made with seemingly no alteration due to Sky Ranch MS.

Of course, if there are any upcoming meetings regarding this, I would like to attend.

Thank you for your time,

Erin Atkinson

From: Summer Time
To: [Zoning](#)
Subject: Rezoning students to Roy Gomm Elementary
Date: Thursday, June 21, 2018 3:18:56 PM

Dear Zoning Committee,

Thank you for taking the time to read my comments. As a parent of 4 children, two of which will be at Roy Gomm in the coming year and one whom just graduated to Swope, I am highly concerned about the prospect of additional children being added to this elementary school. As a mother who has a daughter with a health condition, I am at the school multiple times a week and volunteer in the class rooms 2-3x a month. I see first hand how full the class rooms are, how the teachers lounge is used for various other subjects and how high some of the teacher to student ratios are.

Additionally, I feel that adding to the student population would pose a real safety issue. Pick-up and drop-off are already one of the most chaotic and stressful times of day, as I am sure it is at most schools, but is exacerbated at Gomm because we are literally right on the corner of McCarran and next to a very popular mini-mall of stores.

In my opinion, adding additional cars, buses and foot traffic to this area in the morning and afternoon is just unnecessary. I understand the district has to do what it can to save money and the recent bus route changes were necessary. That by itself will already increase foot traffic and car traffic to the school next year. Adding additional students from any other school that is not over its capacity just doesn't make sense. How does the risk of increasing students to Gomm, putting them over capacity and increasing the chances that someone is going to get hurt outweigh the proposed benefits? Isn't this an issue that can be revisited in later years once we see the affects of the bus route changes and the new schools are built and operating? Can someone answer for me why this change has to be made now?

Once again, thank you for your time. Please feel free to contact me further with any questions.

Sincerely,
Summer Spiaries

From: Renee Hampton
To: [Zoning](#)
Subject: Rezoning for Verdi
Date: Thursday, June 21, 2018 3:20:16 PM

To whom it may concern,

I am respectfully writing in regards to the rezoning meeting scheduled to occur this evening, as I will not be able to attend.

I would like to start by saying I understand the reason for the meeting to discuss rezoning issues, and I appreciate you allowing us, as parents, to have the opportunity to discuss our concerns.

My family lives in the River Park Community, and we are currently zoned for Verdi Elementary, Billingshurst Middle School, and McQueen High School. When my family was researching school districts and neighborhoods to purchase our first home in Reno, we were more than thrilled to find a home in the River Park Community and equally as thrilled to be zoned for our current schools. We could not have chosen a better community, and have had an excellent experience at Verdi Elementary and are looking forward to our move to Billingshurst when it is time.

The close knit culture that has been created at Verdi is one-of-a-kind and in my opinion cannot be duplicated. In addition, without going into detail, my children have been through quite a bit of personal issues, and with that being said the culture at Verdi Elementary, to include the staff, and students has been extremely supportive of my children. I know adjusting and change are both very valuable life lessons, however, I also feel that stability, relationships, and consistency are equally as important and a nurturing foundation which has already been established at Verdi Elementary should continue.

This issue, goes well beyond my own children. Children that are currently struggling with an unstable home environment, or specific social or learning disabilities, whose parents may not take the opportunity to express their feelings, should also be given heavy consideration when determining the rezoning of schools.

Thank you for your consideration.

v/r
Shay & Renee Hampton
