- 1. Question 1:** What is the preferred courseware delivery channel for this RFP? LTI, Thin Common Cartridge, or native in the provider’s LMS with SSO? Please describe your current technical environment (SIS, LMS, data warehouse) and how you expect courseware content to interact with this environment.

Answer: Our student information system is Infinite Campus. We do not have a district wide LMS. Our data warehouse was developed in-house. At this time we are not ready or able to use an API to transfer grades from the courseware to the SIS. It is something we hope to do in the future.
