QUESTION #1: I saw the 470 posted, which included a UPS call out for Cisco or equal. I wanted to reach out for more information as Cisco is not typically a UPS supplier. Would the county entertain an APC bid via one of our certified VARs/Distributors? If so, is there an Identified UPS spec that could be provided?

ANSWER #1: The Category Two Service Request for 548 Cisco Systems or equivalent UPS/Battery Backup pertains to various Cisco Power Supplies listed in Exhibit 1A. For the past several years USAC Program Integrity Assurance (PIA) Reviewers have been reclassifying Switch, Router, and Wireless Controller power supplies as “UPS/Battery Backup”; therefore, to avoid a potential “services not requested on FCC Form 470” issue, we listed the power supplies on the FCC Form 470 in the UPS/Battery Backup Service Request.
