Give a brief description of what was gone over in collaboration:

(Example: We went over solving equations with variables on two sides. Sammy didnt realize that she needed to eliminate the variable altogether on one side. We talked about it and then worked on a few. She has got in now.)

(Example: We had to write essays. So we read each others and then made suggestions to one another on how to improve it. We looked for content suggestions as well as grammar issues. We feel that our essays have now improved.)
