

Name: _____

Period: _____

Animal Adaptation Project: Research

Animal: _____

Scientific Name: _____

Classification: _____

Habitat:

Places in the world (continents, countries, regions)?

Type of habitat, place in the habitat (treetops, underground, etc.)? :

Diet:

Herbivore? Carnivore? Omnivore?

Prey (what it eats)?

Predators (what hunts it)?

Adaptations:

3 Structural (body parts) and its purpose?

- 1) _____
- 2) _____
- 3) _____

3 Behavioral and its purpose?

- 1) _____
- 2) _____
- 3) _____

Historical changes in population (is it endangered? Has it ever been endangered)?

Ancestry

Earliest ancestors of your animal

Intermediate forms of your animal (name 3)

List modern relatives of your animal

Create an ancestry timeline with all the above included

Animal Poster Project Rubric

Attach this paper to your finished poster.

Poster Requirements	Points
Animal Name:	0
Picture / Drawing of animal	/2
Habitat: Where does it live in the world? What type of environment does it live in?	/4
Diet: What does it eat? Carnivore, Herbivore, Omnivore? Prey, Predator?	/4
3 Structural Adaptations: How does it help it survive? Purpose?	/6
3 Behavioral Adaptations: How does it help it survive? Purpose?	/6
Ancestry: Earliest ancestor? Intermediate forms (3)? Modern relatives of your animal?	/6
Ancestry Timeline: Include items found in Ancestry section	/4
Historical Changes in Population: Endangered? Threatened?	/2
