Algebra Lessons for September 13-17

****If you are absent, you MUST make-up the classwork as well as the homework.**

Monday **Sept. 13**	**Classwork: Lesson 2-1** **Students who need to finish test get 15 minutes more. Make-ups for those who haven't started yet are at lunch this week.** • **Warm-up:** What is slope intercept form? What do each of the variables represent? (You need a textbook.) • Notes: rise/run, slope formula (m), positive and negative directions for how to move along the graph using the y-intercept (b) and the slope (m) • In your notes, Begin working on the Try It problems pp. 57-59 from Textbook. • In your notes, Begin the Do You Understand questions p. 60 from the Textbook. • Begin from the Textbook p. 61 #20, 22, 26-27, 32-33.	**Homework:** Complete from the Textbook p. 61 #20, 22, 26-27, 32-33.
Tuesday **Sept. 14**	**Classwork: Lesson 2-2** • **Warm-up:** What is Point Slope Form? Write and label the formula in your notes. • Questions from the Textbook p. 61 #20, 22, 26-27, 32-33? • **How do I write an equation in Point Slope form from graphs, word problems, etc?** • **How do I graph an equation from Point Slope form?** • Begin from the Textbook p. 67 #14-34 evens.	**Homework:** ***Finish*** from the Textbook p. 67 #14-34 evens
Wednesday **Sept. 15**	• No class	**Homework:**
Thursday **Sept. 16**	**Classwork: Lesson 2-3** • **Warm-up:** What is Standard Form? How do you rewrite Standard form in Slope Intercept Form? • Questions from the Textbook p. 67 #14-34 evens? • **How do I write standard form in slope intercept form?** • **How do I write slope intercept form in standard form?** • **How do I graph from either form?** • Begin from the Textbook p. 73 #15-39 odds.	**Homework:** Complete from the Textbook p. 73 #15-39 odds
Friday **Sept. 17**	**Classwork: Lesson 2-3** • **Warm-up:** Quiz on Lessons 1-1 and 1-2. • Questions from the Textbook p. 73 #15-39 odds? • **Can I write convert the equations, graphs, etc. into all different slope formats?** • Begin Writing Linear Equations sheet #1-16 only. Note: You need to write each answer in all 3 formats.	**Homework:** Finish the Writing Linear Equations sheet #1-16 only.
