REPORT NAME	DESCRIPTION	DATA INCLUDED	USE THIS REPORT WHEN YOU...
TEST RESULTS	<ul style="list-style-type: none"> Displays overall performance data for each student for the selected assessment 	<ul style="list-style-type: none"> Includes all available score values (Raw Score, Percent Correct, Performance Level), as well as demographic information such as English Learner, Special Education and Ethnicity Shows distribution of students across Performance Levels, Average Raw Score, and Average Percent Correct. Create student groups for various purposes including re-teaching/assessing, intervention, or enrichment 	<ul style="list-style-type: none"> Want to see “big picture” data for an assessment Want to see overall results by student Want to create student groups based on Raw Score, Percent Correct, or Performance Level
STUDENT RESPONSE	<ul style="list-style-type: none"> Displays student level data by item for the selected assessment 	<ul style="list-style-type: none"> Includes Item Number, Item Type, student response (color-coded for Correct/Incorrect), and student overall Percent Correct. Create student groups for various purposes including re-teaching/assessing, intervention, or enrichment 	<ul style="list-style-type: none"> Want to see each student’s correct and incorrect answers Want to create student groups based on Raw Score, Percent Correct, or Correct/Incorrect for each item
STANDARD ANALYSIS	<ul style="list-style-type: none"> Displays student level data by individual standard for the selected assessment 	<ul style="list-style-type: none"> Includes the Raw Score and Percent Correct for each standard, as well as the Average Percent Correct Includes Personalized Resources aligned to standards that can be assigned to students Create student groups for various purposes including re-teaching/assessing, intervention, or enrichment 	<ul style="list-style-type: none"> Want to see which standards students are having the most difficulty with and those they are mastering Want to assign standards-aligned resources to students for completion via the Student Portal Want to create student groups based on Raw Score or Percent Correct for individual standards
OBJECTIVE ANALYSIS	<ul style="list-style-type: none"> Displays student level data by individual objective (sub-score) and overall score (if applicable) for the selected assessment 	<ul style="list-style-type: none"> Includes the Raw Score and Percent Correct for each objective, as well as the Average Percent Correct Specifically designed for analyzing results of Performance Based (A+) Assessments Create student groups for various purposes including re-teaching/assessing, intervention, or enrichment 	<ul style="list-style-type: none"> Want to see how students performed on the objectives (or sub-scores) for an A+ assessment Want to create student groups based on overall or sub-score Raw Score, Percent Correct, Performance Level
QUESTION GROUPS	<ul style="list-style-type: none"> Group questions (items) by type, content, or other criteria Displays student level data by question group for the selected assessment 	<ul style="list-style-type: none"> Includes the Raw Score and Percent Correct for each question group, as well as the Average Percent Correct Create student groups for various purposes including re-teaching/assessing, intervention, or enrichment 	<ul style="list-style-type: none"> Want to see how students performed on items grouped according to specific criteria Want to create student groups based on Raw Score or Percent Correct for the Question Group criteria
FEEDBACK CARDS	<ul style="list-style-type: none"> Designed for distribution to students for the selected assessment 	<ul style="list-style-type: none"> Provides students with their Raw Score, Percent Correct and Performance Level Lists the items the student answered incorrectly showing his/her answer, the correct answer, and standards May hide the correct answer and/or standards from displaying 	<ul style="list-style-type: none"> Want students to have a paper copy of their test results Want to conference with students and/or parents, share test results with parents, re-teach concepts, etc.
ITEM ANALYSIS	<ul style="list-style-type: none"> Displays summary data for each item on the selected assessment 	<ul style="list-style-type: none"> Includes Item Number, Item Type, Percent Correct, Correct Answer(s) and Incorrect/Partial Correct distribution. Includes links to Resources aligned to the standard(s) for each item. From the Response Distribution chart, create student groups for various purposes including re-teaching/assessing, intervention, or enrichment 	<ul style="list-style-type: none"> Want to analyze how students performed on each item Want to see which item types were most difficult for students Want to review the test items with the whole class or with small groups Want to create student groups based on item answer choices

REPORT NAME	DESCRIPTION	DATA INCLUDED	USE THIS REPORT WHEN YOU...
DEMOGRAPHICS PROFILE	<ul style="list-style-type: none"> Displays assessment data by demographic group of the test takers for the selected assessment 	<ul style="list-style-type: none"> Includes number of students in each demographic group, as well as the percentage that falls into each Performance Level. 	<ul style="list-style-type: none"> Want to see how the subgroups in your class, school, or district performed on an assessment
SUMMARY	<ul style="list-style-type: none"> Displays summary data for the selected assessment 	<ul style="list-style-type: none"> View by item, by standard, by class, by teacher, by grade level and by school, depending on User Role Create student groups for various purposes including re-teaching/assessing, intervention, or enrichment 	<ul style="list-style-type: none"> Want to see how your class performed compared to other students in the school and district Want to create student groups based on overall Raw Score, Percent Correct, or Performance Level
CLASS ROSTER	<ul style="list-style-type: none"> View a roster of students for a specific course or period Rosters are updated every 24 hours based on district SIS 	<ul style="list-style-type: none"> Includes ID #, Last name, First name, Grade, DOB, and some demographic information Add students to the roster and create student groups 	<ul style="list-style-type: none"> Want to see a current roster of students Want to create a student group based on demographics
CUSTOM	<ul style="list-style-type: none"> Create a report of two or more data sets across the same or multiple years for side-by-side comparison 	<ul style="list-style-type: none"> Includes selected data such as Raw Score, Percent Correct, and Performance Levels May include student demographic information, test dates, and other custom details 	<ul style="list-style-type: none"> Want to compare student performance on two or more assessments side-by-side
PIVOT TABLE	<ul style="list-style-type: none"> Create a report that compares student performance on two administrations of the same or similar assessments 	<ul style="list-style-type: none"> Displays student growth, maintenance, or decline from one assessment to another by performance levels Displays percent and number of students in each performance level Drill down to view student level data and create student groups for various purposes including re-teaching/assessing, intervention, or enrichment 	<ul style="list-style-type: none"> Want to compare student performance on pre- vs post- tests, BOY vs EOY, current year vs previous year, etc. Want to create student groups based on Raw Score, Percent Correct, or Performance Level
STANDARDS PROGRESSION	<ul style="list-style-type: none"> Create a report showing student performance on assessed standards Create a report in the beginning of the school year for selected standards and automatically update the report as future assessments are administered 	<ul style="list-style-type: none"> Displays student performance on standards in two ways: Mastery/Non-Mastery and by Performance Levels (as set by the district) Mastery Percent Threshold may be set by the user if not locked by the district Three report options are available: Latest Assessment, All Assessments, and All Assessments plus Average 	<ul style="list-style-type: none"> Want to see if students have mastered a specific standard on the latest or all assessments Want to view progress on standards taught/assessed so far
STUDENT HISTORY	<ul style="list-style-type: none"> Displays historical data of state and local assessments for each student in the district 	<ul style="list-style-type: none"> May include multiple years of results from state summative tests, English Learner assessments, as well as district, school, and classroom level assessments May include the student's class schedule, along with demographic information Displays Standards Progression data based on assessments taken 	<ul style="list-style-type: none"> Want to see how a student has performed on assessments in all content areas for the current and past school years Want to see how a student has performed on standards over time Want to gather historical data on a student for conferencing or collaboration Want to know a student's schedule
