

Nevada Education Association (NEA) offers free micro-credentials that fulfill the course requirement for Teacher Leadership Pool Interview eligibility. These courses also meet the annual professional learning requirement for TOSAs in the Site-based Teacher Leadership Pool.

All courses are online and self-paced. Learners submit evidence aligned to the course content to NEA for completion. NEA assessors will examine the submitted materials and give feedback with opportunities to re-submit if the initial submission does not meet their criteria for passing.

To access the NEA courses, go to <https://nea.certificationbank.com/Nevada> and create a login.

The list below includes the pre-approved courses offered by NEA for maintaining eligibility in the Site-Based Teacher Leadership Pool. The highlighted courses are ones recommended for capacity building in knowledge and skills needed for the Teacher Leadership Pool. *Courses that are not on this list will not be eligible for Teacher Leadership Pool Interview eligibility nor permitted for continuation in the Site-Based Teacher Leadership Pool.*
