

Dear Brown Families,

I am still working to get questions and answers to many safety questions and concerns in regards to how to return safely to our school with Covid 19. I will be working with our staff this week to create some procedures and plans for all of us to follow as we head back to school either in building or distance learning. As soon as we have those plans prepared and ready, I will send it out.

Safety Screener:

- I am sending an attachment that will be the COVID safe protocols that ALL families will need to follow daily before sending students to school.
- See attached.

Transportation:

- This is a message from our Transportation Department. Due to reduced bus capacity per COVID-19 occupancy restrictions and to create accurate student rider attendance records, we are requiring families to sign up for General Education transportation by clicking the link below or finding the link on our website.
- Again, General Education students will need to register for transportation services for the 2020/21 school year. **Please sign up if you intend to ride the bus this year by August 7th, 2020.**
- <https://www.washoeschools.net/Domain/73>

In building or Distant Learning through Brown:

- The survey that families were asked to complete was closed last week.
- I want to Thank all of you (over 450) that did fill out the survey.
- There are still many of you that did not fill out the survey, for those of you who did not I am assuming that your students are coming back, IN PERSON, for the 20-21 school year.
 - If you did not fill out the survey, you can still email me what your plans are for your students at abryan@washoeschools.net. If you could please put your preference in the subject line that would be helpful.
- This information is imperative for me to schedule teachers and students. We will not have teacher information (meaning which teachers your students will have this year) until much closer to the start of the school year, please know that I as soon as I have all the information, I will send it out.
- We will do our best to have Grade Level Supply lists out and on the website by Monday, August 10th. Please note that students will have their OWN supplies and will not be sharing with any other students this year.

I want to Thank everyone for your patience and understanding as we continue to plan and work toward making sure all of our students are learning at high levels in the safest environment possible.

Sincerely,
Principal Bryan
