

Brown Parents,

Each week while we are at home learning digitally, I will be sending out a video of myself. If your students would like to send me feedback on the video they can email me at scoleman@washoeschools.net. Additionally, I have attached an example of what the “Music Song Challenge” that was assigned. This is only an example please have your students choose their own songs. There are YouTube examples that are attached to each of my songs in the challenge. Please make sure that you view them before your student watches them, or at least view it with them.

Please let me know if you need anything while learning from home!
