

2017-2018 Pine Middle School's

# CORE BELIEFS

1. I believe that every attempt should be made to maintain the dignity of both the adult and the student.
2. I believe that students should be guided and expected to solve the problems they create without making problems for anyone else.
3. I believe that students should be given the opportunity to make decisions and live with the results, whether the consequences are good or bad.
4. I believe that students should have the opportunity to tell their side of the story when consequences appear to be unfair.
5. I believe that misbehavior should be viewed as an opportunity for individual problem solving and preparation for the real world as opposed to a personal attack on the school or staff.
6. I believe that there should be a logical connection between misbehavior and resulting consequences.

*I will not argue you with you. If you feel the consequences are unfair, say, "I believe this is unfair, can we schedule a meeting to discuss this?"*
