

## The Golden Ratio and the Human Body

Measure the following:

A = First knuckle to the tip of your finger:

B = First knuckle to second knuckle:

C = Second knuckle to third knuckle:

D = Length of your hand:

E = Wrist to elbow:

F = From the ground to your knees:

G = From the ground to your belly button:

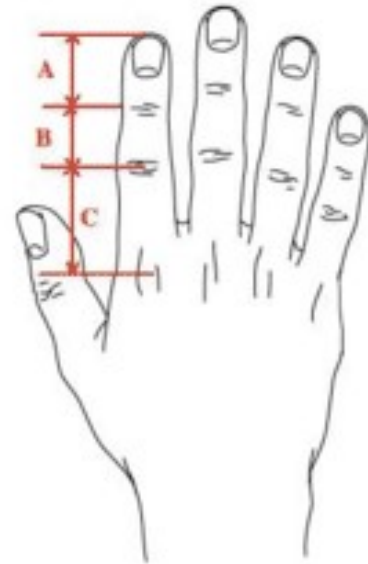

H = From your belly button to the top of your head:

I = Top of head to chin:

J = Width of head at ear level:

K = Nose tip to chin:

L = Lips to chin:

Find the following values. (Round to three decimal places)

B/A	
C/B	
E/D	
G/F	
G/H	
I/J	
K/L	
Average: (Total/7)	

Were any of your ratios close to the Golden Ratio 1.618?
