If an “At home learning” or “Distance Learning” day is called, a connect ed message will go out from the District Office Leadership. Students should plan to log onto Microsoft Teams for each class at the times above. If a student is unable to access Microsoft Teams, they should email or call their teachers for more information. Any work missed due to an “At home Learning” or “Distance Learning” day being called, will be permissible to make up at a later date. Students will not be penalized for returning without assignments being complete but will be responsible to access missed learning upon their return by collaborating with their teachers.
