Title I Department

TITLE I
Improving the Academic
Achievement of the
Disadvantaged

Title I in the WCSD...

What is Title I?

Title I is the largest federal program supporting elementary and secondary education. While state and local funds account for most the national educational expenditures, Title I is an important source of funding for many high-poverty districts and schools. Title I provides supplemental funds to school districts to support schools with the highest student concentrations of poverty in meeting challenging state academic standards.

The goal of the Title I Department is to support schools in improving the academic achievement of all children so they will graduate college and career ready.

How Does Title I Support Achievement?

In addition to providing funding and technical assistance to all Title I schools, the department collaborates and coordinates services to provide funding to support:

- Professional Development
- Early Childhood Education
- Parent Engagement
- Children in Transition
- Intervention Support
- School Performance Support
- Non-Public Title I students
